

Oral presentation guidelines

Each oral presentation is allocated a time slot of 15 minutes, including a **12-minute presentation and a 3-minute Q&A session**. As the time schedule is tight, we ask you to not exceed the suggested talk duration. During each oral presentation session, a member of the staff/local organizer board will be in charge of keeping the assigned time and in moderating the Q&A, together with the presenters.

PC computers for PowerPoint (Microsoft Office version 2016) or PDF presentations are available as part of each lecture halls' presentation system; the 16:9 layout format is supported. **We strongly advise you to use these PCs.**

If you really cannot avoid using your personal device, note that only standard HDMI connection can be guaranteed on site (VGA or other connection types will not be possible): if you have special technical requirements, you need to bring your own adapters. Make sure ahead of time that you can connect your device appropriately and that all presentations play correctly!

Instructions for uploading supporting material

We have organized a **cloud repository** where presenters can upload their presentations at their earliest convenience, but not later than **2 h before the session starts**. Staff members from the local organizing committee will support you in downloading them to the local PC.

To upload your presentation:

1. Identify your talk in the list below
2. Add the respective **prefix** before your file name → e.g. `001_170_mytitle.pptx`
3. Click on the upload link of your session (internet connection required)
4. Drop your file in the repository
5. Make sure that below the drop box, a message of successful upload appears (see pic)

Notes:

- These are **only upload** link. Therefore, we recommend uploading only the final version of your presentation since you will not be able to modify it later
- If you need to edit or update a presentation that has been already uploaded, simply upload the updated version making sure to name the file as specified → e.g. `001_170_mytitle_v2.pptx`
- Other relevant files for the presentation (e.g. videos) can be uploaded to the drop folder. Please, name them with the same prefix of the talk and upload them in an organized way to keep the drop folder neat and tidy → e.g. `001_170_video01.mp4`
- If altogether you need to upload **large files** (i.e. presentations + files > 150 MB) please contact us.

If you have issues or questions, contact us at escan2022.psychologie@univie.ac.at

Day/Time	Sess-ID	Topic	Talk-ID	Title	Prefix Filename	Upload Link
WED 13.00	O01	Artificial agents	170	Domain-specific and domain-general neural network engagement during human-robot interactions	O01_170_	https://ucloud.univie.ac.at/index.php/s/d33svmb5qsdUICS
			192	Joint Sense of Agency in Human-Human and Human-Robot Interaction	O01_192_	
			208	The interplay of human-likeness and intentionality attribution for vicarious sense of agency over humanoid robot actions	O01_208_	
			295	Exploring the relationship between aesthetic appreciation and stimulus and knowledge cues to human animacy.	O01_295_	
			300	Identifying with an avatar face changes mental representation of one's real face	O01_300_	
WED 13.00	O02	Autistic Spectrum Disorders	328	Facial expression predictions in autism	O02_328_	https://ucloud.univie.ac.at/index.php/s/EJXTC1z57HmMng
			146	Single-strand DNA-binding protein SSBP3 is a main neurodevelopmental driver in 1p32.3 microdeletion/microduplication syndrome	O02_146_	
			242	Social attention and social reinforcement learning – a naturalistic eye tracking paradigm and computational modelling of responses to emotional point-light-displays (PLD's)	O02_242_	
			227	The physiological correlates of social space dysregulation in children with autism	O02_227_	
			316	Wanting and liking of affiliative touch and food rewards in autism spectrum disorder: A simultaneous fMRI and facial EMG study	O02_316_	
WED 13.00	O03	Virtual and real body perception	281	Body Ownership and the Neural Processes of Memory Encoding and Reinstatement	O03_281_	https://ucloud.univie.ac.at/index.php/s/XSPHlqrGBtnAdhd
			307	Feeling at home in a virtual body; Neural, behavioral, and phenomenal effects of the illusory embodiment of the desired body in Body Integrity Dysphoria	O03_307_	
			167	Resting-state EEG predicts learning slope during virtual tool-use training in augmented reality and associated changes of body schema in healthy ageing	O03_167_	
			166	Stand up for your brain: The effect of body posture on arousal, effort, and executive functions	O03_166_	

			235	The dynamic experience of arousing architectures influences the perception of emotional body postures: an EEG study in virtual reality	O03_235_	
WED 13.00	O04	Decision making	239	Coordination effort in joint action is reflected in pupil size	O04_239_	https://ucloud.univie.ac.at/index.php/s/8GpSvUKiVWlJEI
			186	Partner choice in motion	O04_186_	
			179	Risk and the body: Different risk taking profiles characterise restrictive eating and acceptance of cosmetic surgery	O04_179_	
			260	Uncertainty deconstructed: a scoping review on the ERP correlates of risk and ambiguity	O04_260_	
			233	Acute stress influences decisions based on social and reward inference	O04_233_	
WED 13.00	O05	Emotion and face perception	221	Beware of this person! Psychophysiological responding to instructed and reversed threat persons	O05_221_	https://ucloud.univie.ac.at/index.php/s/fwS10EovaAl1AgL
			314	Cognitive demand drives dorsolateral prefrontal cortex activity during emotion recognition	O05_314_	
			275	Does representational momentum for dynamic emotional faces differ between happiness and anger? Preliminary results of a mnesic probe task	O05_275_	
			288	Emotion-not credibility-determines the cognitive effort invested in processing social misinformation	O05_288_	
			336	The facilitating effect of maternal odor on rapid face categorization in the infant brain: A progressive decline over the first year	O05_336_	
WED 17.00	O06	Empathy	289	Empathy for pain and aggression among young adult men and women: an EEG Study	O06_289_	https://ucloud.univie.ac.at/index.php/s/UZsBHHAkeNNABul
			249	I see you: Seeing one's partner in online emotional communication enhances the perceptions of togetherness, being heard, and empathy	O06_249_	
			174	Investigating the Relationships between Empathy and Executive Functions in Early Adolescents	O06_174_	
			187	Reduced affective Empathy in Women on Oral Contraceptives: a cross-sectional fMRI Study	O06_187_	
			219	The interplay between psychopathy, antisocial behaviour, and empathy: meta-analytical evidence across different conceptual frameworks	O06_219_	
WED 17.00	O07	Social perception	189	Attention allocation in complementary joint action: how joint goals affect spatial orienting	O07_189_	https://ucloud.univie.ac.at/index.php/s/UXSutaO0DkPdT1e

			331	Perceptions of others' social affect and social cognition influences prosocial behavior	O07_331_	
			349	Sexualization: the Role of Attentional Biases, (Dis)similarity and Animalistic and Mechanistic Dehumanisation	O07_349_	
			293	Social interaction matters: Human behavior and cognition beyond the individual	O07_293_	
			181	Tuning gaze cueing via socio-contextual factors	O07_181_	
WED 17.00	O08	Interoception	178	Cardiac sympathetic-vagal activity initiates a functional brain-body response to emotional arousal	O08_178_	https://ucloud.univie.ac.at/index.php/s/Xm5G8RAiLsR29sm
			304	Heart's role in visual and auditory duration perception, modulated by emotional content	O08_304_	
			354	Respiratory phase-dependent heartbeat evoked potential modulations are associated to cardiac, but not respiratory interoceptive attention	O08_354_	
			224	The perception of interoceptive signals in blind individuals	O08_224_	
			320	Towards new measures of thermal interoception: estimating changes in peripheral body temperature	O08_320_	
WED 17.00	O09	Language, memory and navigation	222	Are you in the mood to learn from feedback?	O09_222_	https://ucloud.univie.ac.at/index.php/s/DLEwZ2c9mWMJfOv
			169	Comprehension is enhanced when the speaker's pupils are larger: pupil size and gaze direction effects on spoken language comprehension.	O09_169_	
			128	Entorhinal grid-like codes and time-locked network dynamics track others navigating through space	O09_128_	
			207	If it ain't coupling, it ain't clicking: impaired social working memory due to disrupted fronto-parietal coupling of brain oscillations in individuals with high autistic traits	O09_207_	
			230	The role of beta oscillations in the mental time travel	O09_230_	
WED 17.00	O10	Stress	280	Distal stress and the persistence of conditioned fear memories	O10_280_	https://ucloud.univie.ac.at/index.php/s/exRl8PA1n8Kzkk2
			247	How nature nurtures: Amygdala activity decreases as the result of a one-hour walk in nature	O10_247_	
			357	Stress recovery with social support: A dyadic stress and support task	O10_357_	
			256	The Effect of Stress on intuitive (Dis)Honesty	O10_256_	
			359	Forget about it: The influence of stress on the ability to control intrusive thoughts	O10_359_	

THU 14.15	O11	Peripersonal space	258	Early traumatic experiences alter both spatial and temporal principles of multisensory integration	O11_258_	https://ucloud.univie.ac.at/index.php/s/erJ3yB2SoiWMIjG
			270	Observation and imitation of emotions shape personal space in virtual reality	O11_270_	
			183	Tool-use extends peripersonal space boundaries in schizophrenic patients	O11_183_	
			360	Pull yourself together: temporal dynamics of the rubber hand illusion.	O11_360_	
			337	Hands of confidence: the role of gestures on spatial problem solving and confidence in answers	O11_337_	
THU 14.15	O12	Personality	340	Anxiety vs Fear: preliminary behavioral and electrophysiological dissociation data in adolescents	O12_340_	https://ucloud.univie.ac.at/index.php/s/tFpeIM5Z4s0G0DW
			326	Feedback-based updating of self-feelings in adolescents and young adults with varying levels of social anxiety: a neurocomputational approach	O12_326_	
			210	Personality and gender differences in the perception of social interactions: an ERP and source imaging study	O12_210_	
			339	The dark side of personality an unsupervised machine learning approach	O12_339_	
			193	The positive dimension of schizotypy is associated with a reduced attenuation and precision of self-generated touch	O12_193_	
THU 14.15	O13	Psychopharmacology	157	Dopamine modulates a computational signature of subjective feelings of fatigue	O13_157_	https://ucloud.univie.ac.at/index.php/s/0yck6uqT9TtEC34
			312	Dopaminergic and opioidergic modulation of social and non-social reward processing – a pharmacological fMRI study	O13_312_	
			238	Intranasal oxytocin selectively modulates the processing of emotional faces (EEG)	O13_238_	
			342	Longevity of resting-state oscillatory power changes and connectivity in theta, alpha and beta frequency bands following administration of oxytocin.	O13_342_	
			343	On the neurobiology of sexual objectification: Oxytocin facilitates cooperative behavior	O13_343_
